

# Foolin'

**Devendra Banhart**

Foolin' on the human population  
I know my mind's on the front line  
But when I'm lovin' on the human population  
Thank God my heart's playin' its part One day, one day at a time  
One day, one day at a time Love is the birth of a nation  
Born from the good womb of humankind  
And all these stories of creation  
Came from the same flame of the most high One song, one song at a time  
One song, one song at a time Fearing, oh, I'm sure gettin' better  
With every morn a new fear is born  
But when I'm trusting, trusting, trusting  
And knowing that we're in it together  
Free to face unknown, free to overcome One day, one day at a time  
One day, one day at a time
