In the New Year

The Walkmen

Oh, I'm still living At the old address And I'm waiting on the weather That I know will passI know that it's true It's gonna be a good year Out of the darkness And into the fire I tell you I love you And my heart's in the strangest place That's how it started And that's how it endsWell I know you're with me It's a point of pride And it's louder than lightning In this room of mineOh, I'm just like you I never hear the bad news And I never will We won by a landslide Our troubles are over My sisters are married to all of my friends Yeah, that's how it startedYou took your sweet time And I waited by without complaint Til all the pipe dreams made me insaneSo it's all over It's all over anyhow You took your sweet time Finally, I opened my eyesMy friends and my family They all ask me one thing "How long will you ramble" How long will you stay with me The snow is still falling I'm almost home I'll see you in the new year
