

# Together

## Miss Montreal

I'm like an animal  
Took life and had it all  
No one could tie me down  
You put me to the test  
Took out all of my mess

And turn it all around Sometimes I doubt it worry about it

I am not used to this  
I am lucky you get me letting me gently  
Getting used to this How you make me feel

Like I want forever  
To end up right here  
You and me together  
You and me together  
I got no need to run  
Cause your the only one

I want to tie me down Sometimes I doubt it worry about it

I am not used to this  
I am lucky you get me letting me gently  
Getting used to this How you make me feel  
Like I want forever  
To end up right here  
You and me together

You and me together How you make me feel

Like I want forever  
To end up right here  
You and me together  
You and me together  
How you make me feel  
Like I want forever  
To end up right here  
You and me together  
You and me together
