

Outside Intro (to Galaxy Song)

Clint Black

When ya feeling inside out and insecure
When life keeps gettin' you down
When all life's daily worries, hurry through your head
You don't want to even get up, you just lye around in bed
When ya feel you just can't take it anymore
And you wonder what on earth it is all for
Your love life's like a war zone, your tv's on the blink
It's enough to drive a drinkin' man to stop an' take a think
