This Cold War With You

Ray Price

The sun goes down it leaves me sad and blue
The iron curtain falls on this cold war with you
Through you won't speak and I won't speak that's true
Two stubborn people with a cold war to go through
Why oh why should love ever come to couples like you and me
Whose cold cold wars are never won and whose hearts just can't be free
Oh let's do right or let's just say we're through
I just can't stand another cold cold war with youWhy oh why should love ever come to couples like you and me
Whose cold cold wars are never won and whose hearts just can't be free
Oh let's do right or let's just say we're through
I just can't stand another cold cold war with you
