American Nights

The Runaways

Clean rock 'n' roll Makes the midnight flow tonight now It's hot tonight Come on let's have a good timeIn the dark of the night We hunt for fun Chasing after the moonlight Hiding from the sunAmerican nights You kids are so strange American nights You're never gonna changeOur magic is young 'Cause we just begun We light up the sky Always on the runWe live in the streets In the alleys of screams 'Cause we're the queens of noise The answer to your dreamsAmerican nights You kids are so strange American nights You're never gonna changeHey, boy you're my good time Dance close ya feel so fine Hold tight we're on fire All night you're my desireEverybody Wanna party Everybody Wanna partyAmerican nights You kids are so strange American nights
