

# Invincible

[Dylan Gardner](#)

I held you oh-so-closely right when we kept  
The memories of the olden days when we made a pact  
We said no one would ever take us and tear us down the seems and they were wrong  
Sometimes I talk about the things I wish would change  
Then I see the color of your eyes  
I still remain a little quiet now  
Don't you see, I try to be much more than I was meant to be  
Tonight, we are invincible  
Why don't we stop the world while it keeps on turning  
Start the fire while its bright and burning  
We shared the memories that I will not forget  
And when we hear them from the past, we close our eyes and paint a picture  
A picture of the one we think we know, but do we know the truth?  
But I see it clear as day and I think that I do  
And if there's a hidden lock and key, I know that I'll be chasing miracles  
Or maybe it's the other way around  
But now I know I'll never have to leave this town now  
Tonight, we are invincible  
Why don't we stop the world while it keeps on turning  
Start the fire while its bright and burning  
Tonight, we are invincible  
Why don't we stop the world while it keeps on turning  
Start the fire while its bright and burning  
Yeah I'm invincible; I'm chasing miracles  
And it's unbelievable; I'm chasing miracles
