

Breakin' Up

The Fabulous Continentals

How sick is this?

How sick is this?

You know, you know, you wanna call me back

You know, you know, you wanna call me back

You know, you know, you wanna call me back, oh!

Hold up, I think you're cutting out

Hold up, I think you're cutting out

Hold up, I think I'm losing you

Hold up, I think I'm losing you

Tell me, can you hear me now?

Tell me, can you hear me now?

Tell me, can you hear me now?

Tell me, can you hear me now?

We're breakin' up, up, up, up

We're breakin' up, up, up, up

We're breakin' up, up, up, up

We're breakin' up, up, up, up

I finally get you on the phone

And our connection's all wrong

You're acting like I'm starving you out

And my battery's getting low

Get me charged up or you will regret it

I need to call you back so I can hear you better

'Bout to end the conversation all together, yeah

Hold up, I think you're cutting out

Hold up, I think you're cutting out

Hold up, I think I'm losing you

Hold up, I think I'm losing you

Tell me, can you hear me now?

Tell me, can you hear me now?

Tell me, can you hear me now?

Tell me, can you hear me now?

We're breakin' up, up, up, up

We're breakin' up, up, up, up

We're breakin' up, up, up, up

We're breakin' up, up, up, up

Come on, give a little love

Why aren't you calling me back?

Okay, now I'm gonna call you at home

And leave another sorry message
Why's it have to get so complicated?
Acting so cold, refrigerated
You've got your voice mail on
I'm so frustrated, yeah
Hold up, I think you're cutting out
Hold up, I think you're cutting out
Hold up, I think I'm losing you
Hold up, I think I'm losing you
Tell me, can you hear me now?
Tell me, can you hear me now?
Tell me, can you hear me now?
Tell me, can you hear me now?
We're breakin' up, up, up, up
We're breakin' up, up, up, up
We're breakin' up, up, up, up
We're breakin' up, up, up, up
I hate it when the signal drops on my cell phone
I'm just tryin' to talk but my bars are all gone
I'm not in the mood for your stupid ringtones
I want my battery charged and I want you in my zone
Hold up, I think you're cutting out
Hold up, I think you're cutting out
Hold up, I think I'm losing you
Hold up, I think I'm losing you
Tell me, can you hear me now?
Tell me, can you hear me now?
Tell me, can you hear me now?
Tell me, can you hear me now?
We're breakin' up, up, up, up
We're breakin' up, up, up, up
We're breakin' up, up, up, up
We're breakin' up, up, up, up
