Hunting Season

Cotti

I know you and I can't believe you;
When you say you give, when given to.
I called you in, I know you won't be
Offering your care and making me;
I need you and you know I'm only
Cautioned to the wind when it's blowing.
I called you in, I know you won't be
Offering your care get me out of here soon
I'll be heading out, hunting season here soon,
You go be a girl, I'll go searching for food,
You take care of him, I'll take care of;
You take care of him, I'll take care of..
How I'm suppose to know that?
How I'm supposed to know?
How I'm suppose to know that?
How I'm supposed to know?
How I'm suppose to know that?
How I'm supposed to know that you need me?

How I'm suppose to know that?
How I'm supposed to know?
I know you did your talking with me
As a trophy head, it's so easy.
I know you when, I let you get me,
Chase me to my death while I'm wasting.
I called you in, I know you won't be
Listening to the wind; when I'm leaving.
I give to you, I don't know what
It's going to take me to get you out of my sight
This is what I've been waiting for the red light
You go be a girl I'll be leaving tonight
You take care of him, I take care of;
You take care of him, I take care of..
You know you did, you held on for too long
You know you did, you held on for too long
You know you did, you held on for too long
You know you did, you held on for too long
