No Rules

Insted

No rules, just be yourself. Don't rely on anyone else. No one says it's got to be. Do what you want and you'll see. No wrong or right. No certain way to be. It's something more than fashion. This is what we believe. Work together, build this scene. Communication, what this means. Forget the borders, we're sick of it. Fuck the labels, they don't mean shit
