Flower

Podunk

Yeah, say goodbye, say goodbye
That's all she wanted to do
She tried to fight, tried to fight
But they wouldn't let her move
They took the only thing that she could offer
To somebody that she wanted to loveFlower
It's hard for her to sleep
It's been that way for so longDon't you cry, don'you cry
That's not what she wanted to do
She tried to fight, tired to fight
But they woldn't let her move
They took the only thing that she could offer
To somebody that she wanted to loveFlowerPlease don't take it from me
Please don't take it from me
Mister won't you let me be
Please don't take it from me
I only wanted to be in love, only want to be in loveFlower
It's hard for her sleep
It's been that way for so longThe seed's been planted deep
And now her flower's goneFlower, flower, flower, flower
