

Someday Is Tonight

Janet Jackson

Here we are, just you and me
Got something for you baby, wait and see
No need to worry, come follow me
I don't want you to think about anything else tonight
We've been together for quite sometime
Now I know that you're love is mine
No more fantasizing of how it would be
'Cause tonight all your dreams come true
Ready to give all my love, won't hold back
Someday is tonight
Let me make your dreams come true, don't hold back
Someday is tonight
You know I promised I'd be worth the wait
Now the wait is over baby, please don't hesitate
Boy, you make me tremble with your warm caress
I never knew I could feel this way
No more fantasizing you'll ever have to do
'Cause tonight baby, all your dreams come true
I want you so bad, I can taste it
I'm yours if you want me
Ready to give all my love, won't hold back
Someday is tonight
Let me make your dreams come true, don't hold back
Someday is tonight
Ready to give all my love, won't hold back
Someday is tonight
Let me make your dreams come true, don't hold back
Someday is tonight
