

Everybody

Macy Gray

Get on the dance floor and shake it with me
Well, shut your mouth, stop all that complaining
About the world and all your suffering
We are so sick of all your opinion
Ain't what you say is
What you'll do with your guns
Do it like this or do it like that
[Incomprehensible] a few good men
Everybody, everybody, everybody, everybody
Get up, get out and do something
Go do your parts, start chipping in
Live for yourself and you will live in vain
You live for others, you will live again
You're either enemy or you are the friend
You're talking, talking
We'll be glad when you're done

Ain't what you say is
What you'll do with your love
Do it like this or do it like that
[Incomprehensible] a few good men
Everybody, everybody, everybody, everybody
Get up, get out and do something
Go do your parts, start chipping in
Live for yourself and you will live in vain
You live for others, you will live again
You're either enemy or you are the friend
Everybody, everybody, everybody, everybody
Get up, get out and do something
(Everybody)
Go do your parts, start chipping in
(Everybody, everybody, everybody)
(Everybody, everybody, everybody, everybody)
