

# Now We're History

## Illdisposed

Back then she got me  
My heart was aching  
We lied and lied  
We talked the nights away Don't know what's wrong  
My life or just me  
Don't see a way out  
Can't deal with the pain [chorus]  
But now we're history  
Stories told in a playful kind of way  
Too much too long and so it ends for us  
I dread to think of what could have been A year has gone  
Just let it all be  
This is the real me  
It's what I've waited for You were an angel  
But you deceived me  
This is where I get off  
Here comes my stop now Not for my eyes to see  
For what I saw was another man  
Embraced by your hand
