

# Lover's Lane

## FireHouse

Oey, oey Woh, alright She drives me crazy, ha  
She drives me wild  
But when she tries to  
Satisfy me when I'm drivin'  
We need to stop somewhere for a while Ow, I'm gettin' ready  
I feel the need for speed  
Can't slow down  
Till she gives me what I need I know just the place that we can go  
(We can go)  
Hop in the back, we can be all alone  
(All alone)  
Lock the doors and hold on tight  
(Hold on tight)  
We're gonna have a good time tonight We're going down, down, down to lover's lane  
That's where she drives, drives, drives me insane  
I'll take her down to, down to lover's lane  
We're going down, down, down to lover's lane  
Oh yea My motor's runnin'  
Yea, it's gettin' hot  
I get overloaded  
Overheated, could explode  
I can't believe it  
We just gotta stop I know just the place that we can go  
(We can go)  
Hop in the back, we can be all alone  
(All alone)  
Lock the doors and hold on tight  
(Hold on tight)  
We're gonna have a good time tonight We're going down, down, down to lovers lane  
That's where she drives, drives, drives me insane  
I'll take her down to, down to lovers lane  
We're going down, down, down to lovers lane  
Oh, yea Hu, hu Lovers lane We're going down, down, down to lovers lane  
That's where she drives, drives, drives me insane  
I'll take her down to, down to lovers lane  
We're going down, down, down to lovers lane C'mon boys, one more time  
We're going down, down, down to lovers lane  
That's where she drives, drives, drives me insane  
I'll take her down to, down to lovers lane

We're going down, down, down to lovers laneOh, yea  
Woh, bring me
