

The Way You Do

98 Degrees

Ooh, ooh, ooh the way you do
You've heard this a thousand times before
I'm in love with you
You'll hear it atleast a million more
Baby, that's the truth
It's the small things that endear me
Every time that you are near me
The way you laugh at what I say
The way you look at each new day
The way your tears fall right on cue
That's what I love about you
Nobody else knows me by heart
Takes me where I can reach the stars
Makes me believe in love
The way you do
You see in me the man that I can be
And I'm thankin' you
You've given me all I ever need
All I wanted, too
I know how blessed I am
Girl, you are my best friend
The way you laugh at what I say
The way you look at each new day
The way your tears fall right on cue
That's what I love about you
Nobody else knows me by heart
Takes me where I can reach the stars
Makes me believe in love
The way you do
Ooh, ooh, ooh
The way you do
Ooh, ooh, ooh
The way you do
You gotta listen, baby
The way you laugh at what I say
The way you look at each new day
The way your tears fall right on cue
That's what I love about you
Nobody else knows me by heart

Takes me where I can reach the stars

Makes me believe in love

The way you do

The way you do

The way you do
