Fresh Start Fever

You Me At Six

Everybody loves the original, everybody's got time to be cynical
Old enough to know better by now
It's the greatest joke don't go letting me down
Hold my drink, this just got physical
I'm on a new wave it's getting visceral
Going toe to toe to see how you go
I'm in pain say yes this is painfulOh heart of mine
Sing a sad song sing a sad song
Warning you
Oh heart of mine
Sing a sad songAnd it's a fresh start fever
Who wouldn't want to be here?
Welcome to the future
Dream a little biggerCause for now I reserve judgments
Until these chains, chains are redundant
The brave die young and that's all right
For some but I'm after something long term, long term
Let's make resolutions
I've only got problems and no solutions
You're just some one to the world but
You're the world to someone else who told youOh heart of mine
Sing a sad song sing a sad song
Warning you
Oh heart of mine
Sing a sad songAnd it's a fresh start fever
Who wouldn't want to be here?
Welcome to the future
Dream a little biggerAnd it's a fresh start fever
Fresh start fever
Welcome to the future
Dream a little big dream a little biggerYou're a hard act to follow
So I stare down this empty bottle
There is no message at the bottom so how do I solve it
I'm a hard act to follow
I know we sink so slo-o-ow
The shallow is as shallow does
Keep a track on all those scarsI said you've got a chip on your shoulder
Getting worse now you're older
It didn't hurt, now your sober

It's you life and now it's overAnd it's a fresh start fever
Who wouldn't want to be here?
Welcome to the future
Dream a little biggerAnd it's a fresh start fever
Fresh start fever
Welcome to the future
Dream a little big dream a little bigger
