

# Looking At You ("A-Square" Single Version)

MC5

When it happened, Something Snapped inside me  
Made me wanna hide  
All on my own, all on my own  
I stood up on the stand my eyes shut tight Didn't wanna see anybody  
Feeling alright, having a good time heh  
Doing alright, doing alright  
Doing alright, doing alright I saw into the dancing crowd  
Felt like screaming out loud  
I saw you standing there  
Saw your long, your long hair yeah Opened up my eyes baby  
You made me realize what I wanna do now  
I wanna do now babe, looking at you  
Looking at you babe, looking at you  
Looking at you, looking at you baby You baby (x6) Yeah yeah (repeat verse 2) (with 9 extra "you baby" s)
