Let It Ride

Automatic Loveletter

lay on the floor
breathe it in deep
don't speak, don't say a word
just savoring
you're all that I have
and all to hold onto
you carry me on
come on, come oncatch a falling star
chase all your dreams
and DON'T let them GO!take me away
let's get out of this town
run, baby, run
we're unstoppable now
on top of the world
sing it out loud
and mean it
and keep believing
we've got the rest of our lives
let it ridewe're running away
don't tell anyone
we'll be the talk of the town
we'll be the envy of everyone
dances to mixed tapes and car tops
so don't, don't, don't let this GO!you take me away let's get out of this town
run, baby, run
we're unstoppable now
on top of the word
sing it out loud
and mean it
and keep believing
we've got the rest of our lives
so let it ride
so let it ride
the time of our lives
let it ride
so let it ride
the time of our livestake me away
let's get out of this town
run, baby, run

we're unstoppable now
on top of the world
sing it out loud
and mean it
and KEEP believing
we've got the rest of our lives!!!take me away
let's get out of this town
run, baby, run
we're unstoppable now
on top of the world
sing it out loud
and mean it
and KEEP believing
we've got the rest of our liveslet it ride
let it ride!!!!!
let it RIDE!!!!!!!!
let it ride.....
