# Spared in Hell

## Defeater

[Verse 1]
I've never heard the voice of God
I've found no trace of heaven either
Since I was spared in hell I repay the old chaplain that saved me
I spend my days with the good book
Follow every chapter, prayer and verse
I spend my nights with my vices
Just to find some proof in the words[Verse 2]
I've never heard the voice of God
I've found no trace of heaven either
To try and forget my time in hell
I raise a glass to the saint that saved me
I spend my days with the bottle
Lie in every chapter, prayer and verse
My nights spent burying demons
Just to find some weight in the words[Bridge]
Please let me find some weight in the words
Please let me find some weight in the words
Please let me find some weight in the words
Please let me find some weight in the words[Outro]
Lord let me down
I find no proof in the words, no vestige of hope or the Lord
Lord let me down Lord, Lord let me down
I find no proof in the words, no vestige of hope or the Lord
Lord let me down lord, Lord let me down
Let me down Lord, let me down
