## Kelly Jones

Hey, Misty  
What's on your mind?  
You look miles away  
You can't find your smile?Hey, Misty  
Getting jealous again?  
Your man's going out  
Yet you're still stuck inHey, Misty  
Your mind's racing 'round  
You're thinking the worst  
What could be going down?Hey, Misty  
Gotta let it all go  
Or it will drag you down  
And bury you in a hole, hole, hole, hole
