

A Better Day (DJ Spinna Remix) [feat. Raul Midon]

Louie Vega

When your world is closing in
And you can't begin to understand this crazy way we're livin'
Close your eyes remember how it feels to love
(There's a voice in every heart)
Whispers clear here for a better day, a better way, better day
Imagination leads the way
To a place where everyone can have their say
(There's a voice in every heart)
Whispers clear here for a better day, a better way, so clear, voice in every heart
Everyone voice in every heart, yeah
When your far away from home
And you've find you lost the key to everything your soul decieves
Take the time remember how it feels to love
(There's a voice in every heart)
Whispers clear here for a better day, a better way, so clear, voice in every heart
(There's a voice in every heart)
Whispers clear here for a better day, a better way, so clear

SPANISH VERSES

(There's a voice in every heart)
Whispers clear here for a better day, a better way, so clear, voice in every heart
