

# In This Hole

## Cat Power

In this hole we have fixed  
We get further and further and further  
Farther for what  
We must do  
We must do I saw you asleep beside a wall  
Your skull inside a wall  
Mind blackened by all thoughts of God One absence of truth  
One horrible thing you saw  
What you truly wanted to become  
And who you thought I was  
Who you thought I was In this hole that we have fixed  
We get further and further and further  
Farther for what  
We must do  
We must do
