

I Can't Get With That

Fun Lovin' Criminals

Yeah, they're tryin' to move us to use us
Like Judas did Jesus to please us
Diverting the issues to misuse the people
So how are we gonna get 'em?
How are we gonna vote them out?

When the wingtips got it locked up Yeah, with one thing you don't know ya dig it
The freaking wingtips did it
But some of us is wise and some of us is suckers
We all bleed red, even racist motherfuckers And I can't get with that
No, I can't get with that
No, I can't get with that
I said, "No, I can't get with that
No, I can't get with that
No, I can't get with that"
I said, "No, I can't get with that
No, I can't get with that
No, I can't get with that"
I said, "No, I can't get with that
No, I can't get with that
No, I can't get with that"
I see the hoes and the hustlers, be piled up in clusters
Now, since they upped the anti and hooked up Giuliani
And the black kill the black and Latino kill Latino, man it's evil
The same damn story and a sequel I thought I fought for what was right
But in the end, my friend, 20-20 is hindsight
I think, I caught you out there, chillin' up in the Bahamas
I take you to Miami to meet the Dalai Lama, and And I can't get with that
No, I can't get with that
No, I can't get with that
I said, "No, I can't get with that
No, I can't get with that
No, I can't get with that"
I said, "No, I can't get with that
No, I can't get with that
No, I can't get with that"
I said, "No, I can't get with that
No, I can't get with that
No, I can't get with that"
I said, "No, I can't get with that
No, I can't get with that
No, I can't get with that"

No, I can't get with that"
