

Body Language

Jesse McCartney

Ooo, that body's like music to my ear
Ooo, that body's like music to my ear
Ooo, that body's like music to my ear
Cause what you want is right here Oh she, oh she so international
The way, the way she get it on the floor
I'm tryin', I'm tryin' to holler at you
I want to get to know you better Parlez vous francais?
Konichiwa
Come and move in my way
Hey, little chica from Guadeloupe
That thing you got behind you is amazing Now, I don't speak Spanish, Japanese or French
And the way that body's talkin' definitely makes sense
It's her, her body, her body, her body language
It's her, her body, her body, her body language
The way she moves around
When she grinds to the beat
Breaking it down articulately
It's her, her body, her body, her body language
It's her, her body, her body, her body That make me want to say hey ('ey!)
Hey ('ey!)
Hey ('ey!)
It's her, her body, her body, her body language
C'mon Shorty, let me whisper in your ear
Tell you everything you wanna hear
You got my vote: Hottest Girl of the Year
Let's have a celebration, baby Parlez vous francais?
Konichiwa
Come and move in my way
Hey, little chica from Guadeloupe
That thing you got behind you is amazing I don't speak Spanish, Japanese or French
But the way that body's talkin' definitely makes sense
It's her, her body, her body, her body language
It's her, her body, her body, her body language
The way she moves around
When she grinds to the beat
Breaking it down articulately
It's her, her body, her body, her body language
It's her, her body, her body, her body That make me want to say hey ('ey!)
Hey ('ey!)

Hey ('ey!)

It's her, her body, her body, her body language
C'monI'm lifting up my voice to say
You're the hottest girl in the world today
The way you shake
You got me losing my mind
You're banging like a speakerbox
Turn around; the party stops
Universal lady, let me take you awayI don't speak Spanish, Japanese or French
And the way that body's talkin' definitely makes sense now
It's her, her body, her body, her body language
It's her, her body, her body, her body language
It's the way she moves around
When she grinds to the beat
Breaking it down articulately
It's her, her body, her body, her body language
It's her, her body, her body, her bodyYou make me want to say hey ('ey!)

Hey ('ey!)

Hey ('ey!)

It's her, her body, body, body language
C'monOoo, that body's like music to my ear
Ooo, that body's like music to my ear
Ooo, that body's like music to my ear
'Cause what you want is right here
