Down Below

The Cruel Sea

Blow away, blow away down below away
Down below, into and down below awayWhen you fall asleep
Fall with me down into the deep
When you fall asleep
Fall with me down intoDown below, alone in your down below your heart
I wait for you, down below until you fall apartWhen you fall asleep
Fall with me down into the deep
When you fall asleep
Fall with me down into the deepAway, blow away
Down below, down below
