

# Scent

## The Mercurymen

My brain is haunted by this scent  
it takes me back to a past event  
it's like a drug that I need every day  
I need to preserve it, have to get it my way Forever I'll have this desire  
this scent - keeps me alive and fills my soul  
Forever engulfed by its fire  
this scent - consumes my mind and takes control The feelings I get when memory comes back  
gives me something in my life I lack  
it takes me away to the place I seek  
and my being reaches its highest peak I follow the trail it leaves behind  
boxing it up is on my mind  
preserving this scent is my aim  
I satisfy my senses, that scent must sustain.
