Burial Ground

Immolation

War has evolved, in a world bound for death
Trails of blood lead to our corpses
Liquids of life, have taken to the earthMan destroying manMankind a corpse with man's insanity
The earth is now a burial ground
Destroying humanity
A world made of shit! Now in endless painMan destroying the earthWar has evolved, in a world bound for death
Trails of blood lead to our corpses
Liquids of life, have taken to the earthMan destroying man
