

# The Killing Queen

## White Skull

Kill the fierce her only deep desire  
She waited years her anger getting higher  
No way she wanted revenge  
Hagen knew he left the land forever  
He was well aware, he slained the hero  
Its guilt, he'll never deny[chorus]  
Nor could the king  
Stop the killin' queen  
Time was for sure  
Only an evil truce Watch out The queen bosom swell with fury 'n' anger  
Didn't care how many lives were endin'  
Their lives she will never spare  
Day by day the cruel queen was plannin'  
Her invitation to the bloody slaughter  
No way she wanted revenge
