

Darkness & a Bottle to Hold

GG Allin

Cigarette is what I need
Hot shot of whiskey in my blood
Give me someone to be mine tonight
'Cause I ain't got nobody
And I don't need no one
No I don't want to see anybody
No I don't want to see anyoneGive me something to get me high
Give me brandy or give me cheap wine
Make things spin so I can't see
Give me darkness and a bottle to hold
Give me darkness and a bottle to holdJust give me another cigarette
Give me pain, give me death
Give me heroin, and set me free
'Cause I can't see nobody
And I don't need no one
No I don't want to see anybody
And I don't want to see anyonePeople betray you, it's easy to see
Alot of hate inside of me
It's a game that people play
And the joker is following me
And the joker is following me
And the joker is following me
Needles, drugs, heroin and whiskey
I like those things, yea
