## Pestilence

Mutual aversion and disgust, religious facts  
Fighting for the land on which they live  
Separation of different races, different nations  
Disparity, no solidarityDeuce of a mess, impeachment of faith  
Preachings, reconciliations insincere  
Needless battles, die for the immortal one  
Loyalty persuades, you'll persevereFollowers of false belief praise idolatry  
Worship statues made of stone the adoration  
Despiction of the gods in human shapes  
Inhuman rituals, biblical transgression  
A weapon in your right-hand, in your left a rosary  
The polytheistic-monotheistic war  
Believers of Almighty prepare to die  
Explain to me, what are you fighting for?Shrouds of smoke, moonsoonclouds in the sky  
Temples and crucifix' on fire  
Malevolent rage in distressed areas  
Admission of true faith is their desireRiots and slaughter, mortification of the dead  
Victimize the ones you despise  
Breathing smother of pyromaniac conflagrations  
Obstructed respiration, affected eyesCommandments  
Clerical orders  
Combative perjurors  
Convinced in their rightCommandments  
Eternal tenacity  
Abusing obedience  
Unreal motive to kill!
