Sodium Light Baby

The The

As I sat in the back of that old taxi cab
Waitin' for the evenin' to come
On every street of this city
I heard you call my nameYou're the strangest feeling I ever had
The strangest feeling
You're the strangest feeling I ever had
The strangest feelingFrom the day that we are born, until the day we die
We are hostage to our hearts' desire
Though I ride this city
I can't escape from youAnd when I look up to the stars I wonder
Can the world really be so cruel?You're the strangest feeling I ever had
The strangest feeling
You're the strangest feeling I ever had
The strangest feelingTonight the wolves are howling
I can't escape from you
A yearning past denying
I will surrender toYou're the strangest feeling I ever had
The strangest feeling
You're the strangest feeling I ever had
The strangest feelingShine on me, Sodium light baby
Shine on me, Sodium light baby
Shine on me, Sodium light baby
Shine on me, Sodium light baby
