

# Sodium Light Baby

## The The

As I sat in the back of that old taxi cab  
Waitin' for the evenin' to come  
On every street of this city  
I heard you call my name You're the strangest feeling I ever had  
The strangest feeling  
You're the strangest feeling I ever had  
The strangest feeling From the day that we are born, until the day we die  
We are hostage to our hearts' desire  
Though I ride this city  
I can't escape from you And when I look up to the stars I wonder  
Can the world really be so cruel? You're the strangest feeling I ever had  
The strangest feeling  
You're the strangest feeling I ever had  
The strangest feeling Tonight the wolves are howling  
I can't escape from you  
A yearning past denying  
I will surrender to You're the strangest feeling I ever had  
The strangest feeling  
You're the strangest feeling I ever had  
The strangest feeling Shine on me, Sodium light baby  
Shine on me, Sodium light baby  
Shine on me, Sodium light baby  
Shine on me, Sodium light baby
