It Snowed (Remastered)

Meaghan Smith

It snowed, It snowed
It snowed last night
Everything is sparkling with diamond light
The road is bare
It's four feet high
Honey let's play hooky
Cause it snowed last night
It snowed, It snowed
It snowed last night
Get your hat and coat and bundle up real tight
Hitch up that sled and we'll take a ride
Everybody's happy
Cause it snowed last night
Well how merry, how bright
The snow fall turns the
World into a lovely sight
It snowed, it snowed,
It snowed last night
Honey let's play hooky
Cause it snowed last night
And when the sun dips out of sight
We'll cozy up together by the fireside
And just before we close our eyes
Wish upon a star it snows again tonight
Wish upon a star it snows again tonight
Wish upon a star it snows again tonight
