So Sorry to Say

Celldweller

So lost
Tell me how can it be
I'm desperately trying
To understand why
I will push you from meSo close but so far away
I cannot see how this happened to me
I'm so sorry to saySo lost
For so long i cannot tell
How in my mind
And what moment in time
I woke up in this cellSo close yet so far away
I cannot see how this happened to me
I'm so sorry to sayI want you to go away from me
I want you so much to stay with me
I want you to go away from me
I want you so much to stay with meGo away from me
Stay with me
Go away from me
Stay with meI want you to go away
I want you so much to stay (so sorry to say)
I want you to go away
I want you so much to stay (so sorry to say)I want you to go away from me
I want you so much to stay with me(so sorry to say)
I want you to go away from me
I want you so much to stay with me(so sorry to say)
So sorry to say...
(I cannot see how this happened to me)
I'm so sorry to say... say, say, I'm so sorry to say...
(I cannot see how this happened to me)
I'm so sorry to say...
