Love Song

Mark 'Oh

All this time I'm distracted from the world The world outside of your arms All I need is here

Try and find, a way to say the things The things I feel when you smile They take away my words

You know, that people come and go It's here for me When things in life run me down All I need is you

You wanted a love song You asked for a love song You wanted a love song from me You asked for a love song from me Now there's a love song for you

Yeah, I know, I don't hear you, I don't see you, I can't feel you You know, it's always my fault, communication is such a let down I ain't proud of my behavior I thank the lord, you're still here (Repeat x 6)

Yeah I know that I push you Yeah I know that I push you Yeah I know, yeah I know that I push you

I know that I push you (Repeat x 7)

Try and find, a way to say the things The things I feel when you smile They take away my words You know, that people come and go You wanted a love song from me You asked for a love song from me Now there's a love song for you
