

Wombat

Phish

Had to have that
Had to have that
Your wombat
Had thatHad to have that
Had to have that
Your wombat
Had thatYou gotta take it with you when you're going forward
If you're moving on you've got to leave it behind
(Know you've got to leave it behind)You gotta take it with you when you're going forward
If you're moving on you've got to leave it behind
(Know you've got to leave it behind)
Your wombat
You had that
Your wombat
You had thatYou gotta take it with you when you're going forward
If you're moving on you've got to leave it behind
(Know you've got to leave it behind)It's kinda like the theme from the "Fish" TV show
You know - with Abe Vigoda
The "Fish" TV show
You know - with Abe VigodaYou gotta take it with you when you're going forward
If you're moving on you've got to leave it behind
(Bring it forward or leave it behind)Little red wagon took a big jump
(Cuddly but deadly)
That pup was caught in a centrifuge
(Herbivorous, crepuscular)
Never did tumble over the side of the hill
(Discovered by a man named Wilson)
Kept flying down to Baton RougeSpit out the seeds
Gnaw on the pulp
Suck on the juice
And simmer the rinds
(Herbivorous, crepuscular)Look at everything
You had to have
Bring it forward
(Bring it forward or leave it behind)
Or leave it behindCuddly, but muscularHerbivorous, crepuscular
Cuddly, but muscular
Herbivorous, crepuscular
Cuddly, but muscular

Herbivorous, crepuscular

Cuddly, but muscular

Herbivorous, crepuscular
