

Great Expectations

Toto

I have great expectations for you and me
And there's no obligations my love
We have sailed across the waters of a raging sea
And it's you that I'm thinking of Hello to you good people everywhere
It's a new world children handle her with care
There's no end to the challenges we face
It's high tide on the shores we navigate Please stand clear of the edge
So we won't hang by a thread So raise your hand take a stand for each other
Lord let us share the water I've got one million reasons for us to believe
There's nothing we can't change my friend
I've got great expectations for now and forever There's no stopping the games you like to play
Am I the only one who doesn't think this is a game
Have you already heard
We live and die by our word So raise your hand take a stand for each other
Lord let us share the water I've got one million reasons for us to believe
There's nothing we can't change my friend
I've got great expectations for now and forever (Long Instrumental Jam) I've got one million reasons for us to
believe
There's nothing we can't change my friend
I've got great expectations for now and forever
