

Walking Nebraska

American Supermodel

Chorus

Hey you superstar you've got your
Thumbs up blowing kisses at cars
Twenty more bucks won't take you far
Wherever you are you'll be Walking NebraskaVerse
I saw you standing on the corner
Looks like you took another quarter
It's time to fill another order
Here come the kids but they ain't got dough
To them you're just another side show
I think you need a superhero to sweep you awayChorusVerse
You're getting tired of the danger
And all you need is just one stranger
I'd like to try and re-arrange herI think you need a superhero
It's like another Richard Gere show
I said it once and boy does it flow, and that's how it goesChorus

Bridge

I kinda like her but I think that she should run away
I wanna touch her but it's just not cool no
Would you help me I just don't have a clueChorus (x2)
