

The Beautiful Game (feat. St. Lucia)

RAC

Stumbling drunk through the garden
I see you design in your empty room
Now the seduction gets old
With the dots and all the crosses
But symmetry looks good on you, oh You got everything you wanted
You got everything you needed
Know it's hard to believe it, oh
That you got what you wanted
To say that you don't need it, baby
Oh it's such a beautiful game
It's too fast
It's too slow
You can't be serious
It's a lie to think of this love
As anything but laughing at a choir boy
So what you gonna do now?
The die has been cast
And the wheel has stopped spinning
Rotating 'til the cycle ends You got everything you wanted
You got everything you needed
Know it's hard to believe it, oh
That you got what you wanted
To say that you don't need it, baby
Oh it's such a beautiful game
(It's too slow, it's too slow)
You want it, you've got it, you take it
Throw it away
(It's too slow, it's too slow)
You want it, you've got it, you take it
Throw it away Slow down, baby please
When you drive until the morning
You will see
Hold your breath for me
When you're falling you will see symmetry
Slow down, sit with me
When you drive until the morning
You will see
(It's too slow, it's too slow)
(It's too slow, it's too slow) You got everything you wanted

You got everything you needed
Know it's hard to believe it, oh
That you got what you wanted
You're never gonna need it baby
Oh it's such a beautiful game You got everything you wanted
You got everything you needed
You want it, you got it, you take it
Throw it away
You got everything you wanted
You got everything you needed
You want it, you've got it, you take it
Throw it away
