Something About You

Kevin Lyttle

Maybe it's your brown eyes
Or your thick thighs
Makes me fantasize
Girl, I hope your realize
That I'm stuck on you
Girl you got that glue
My wet dreams come true
No need to talk there's nothing to say
Take off these clothes they're getting in the way
Imagine your kiss, hold me like this
Girl girl girl girl
Something about you girl
That drives me wild
Something about you girl
That makes me smile
Something about you girl
That drives me wild
Something about you girl
That makes me smile
Oh yeah, now, come on baby
Love's not a game I play
I mean every word I say
I prove it every night and day
You don't have to be afraid
So come a little closer, babe
For me your body's been saved
I'll take you up an octave
No need to talk there's nothing to say

Take off these clothes they're getting in the way
Imagine your kiss, hold me like this
Girl girl girl girl
Something about you girl
That drives me wild
Something about you girl
That makes me smile
Something about you girl
That drives me wild
Something about you girl

That makes me smile
Oh yeah, now, come on baby
When you move your body
Jiggling that jelly
Making me go crazy
Girl, you are so sexy
Tick tock on the dot like a clock
Girl, just let me hit the spot
Come and give me all you got
Keep it coming never stop
Something about you girl
That drives me wild
Something about you girl
That makes me smile
Something about you girl
That drives me wild
Something about you girl
That makes me smile
Oh yeah, now, come on baby
