

# Likes of You and Me

## Meadowland

it's just a turn  
a turn I'd like to take  
a peace  
and try to make it stay I'm not concerned  
how to  
I cannot see  
believe  
I've earned  
myself some peace and it's  
gaining on me  
trickle  
filling  
something  
and it's shining  
through the chink  
I see the evening setting again  
the day is crawling backwards  
till it's back in its den it's like  
they've never seen the likes of you  
and me  
and I have never seen  
anyone like you it's just a plain  
and simple crash  
oh my  
my head  
when will you cross my path behind the sky that shares the neon light  
with us  
star begin to glow and they're  
multiplying  
like they have been somewhere  
though they're not hiding there are brighter lights that's coming  
straight from our souls  
we can not blend in no more  
we're silver and gold it's like  
they've never seen the likes of you  
and me  
and I have never seen  
anyone like you all the shapes and the colors  
there's no mold for a thing like this

what it holds there's no telling  
and it came to me  
In a flash  
In a flash
