In The Dark

Omarion

Yea

All this time I've been waitin'

To get you in this room alone

Now you're here, it's time, listenThis can't be real

The time has come for us to do our thing

What I mean by do our thing is

Come in and shut the door

You gon' ring then press ignore

I'ma give you what you waitin' for I am so anxious but a little nervous

I know that you're the one

So I can't explain what you do to me

So turn off the lights, let's make it right

Girl, I wanna take it, yeaIn the dark

We can get touchy, feely, I'ma make sure you feel me

Girl, I can't wait to get us in the dark

This time can't be wasted, girl, I'm tryna taste it

Baby, come and meet me in the dark

Don't be afraid when I touch you, I just wanna love you

We can get busy in the dark

It's time to get our grind on, baby, don't be shy, no

All these things can happen in the darkDon't want to complicate the situation

So I'ma try my best to make it comfortable for you

Girl, you won't believe what's happenin'

You gon' feel like a virgin again

Guarantee you come back againOne, we don't need no candle lights

Two, the moon is shinin' bright

Three, baby, all I need is your legs wrapped around me

Four, we don't got no time for games

Five, I wanna hear you scream my name

Six, 'cus it's time for me to set myself up into youIn the dark

We can get touchy, feely, I'ma make sure you feel me

Girl, I can't wait to get us in the dark

This time can't be wasted, girl, I'm tryna taste it

Baby, come and meet me in the dark

Don't be afraid when I touch you, I just wanna love you

We can get busy in the dark

It's time to get our grind on, baby, don't be shy, no

All these things can happen in the darkAll day I've been waitin', oh, for you girl

Gonna take you, gonna take you on this ride

I'm gonna show you how I get down Gonna show you how I get downI know that things will happen If you don't know baby I will Tomorrow we gon' do it again And again and again and again But there's one more thing that I gotta tell, girl Please don't tell nobody what we doIn the dark We can get touchy, feely, I'ma make sure you feel me Girl, I can't wait to get us in the dark This time can't be wasted, girl, I'm tryna taste it Baby, come and meet me in the dark Don't be afraid when I touch you, I just wanna love you We can get busy in the dark It's time to get our grind on, baby, don't be shy, no All these things can happen in the darkNow it's really time In the dark For everything to happen

For everything to happer
Between me and you
In the special place
In the dark
Yea
