

Wonder

Adventure Club (feat. The Kite String Tangle)

I wanted it all, wanted what I could not control I just cannot control it all

Levelled it off to a place where I could feel alive

and I'm not weighed down at all

Learning a lot, learning that I've just gotta let go

I cannot carry it all, It's not who I was

 Taking me back to this place

Where I loved when I was just a boy

 Don't you wanna just remember

 Who you are?

I wanna be back in our summer

 Do you remember?

 Come with me

 No room for thunder

 No going under

 I wanna be, free, breathe

 Dream About our summer

 I'll always wonder

 Yeah we wandered around

 Swimming at night under the stars

 and no-one there to bring us down

 We'll never be down

 Now I know that when I think back

 All this stuff's a state of mind

 Don't you wanna just remember

 Who you are?

 I wanna be back in our summer

 Do you remember?

 Come with me

 No room for thunder

 Not going under

 I wanna be, as good as it was

 It wasn't enough, I wanted it all

 I wanted too much, I'll never forget

 About our summer

 I'll always wonder about our summer.
