Don't Be Scared

The Fixx

You left me shadows
Etched on the wall
You don't hear my whispers
I'm deaf from your callDream your lie in your tainted sun
Tell me I'm right when I'm left for dead
I wanna see you come in before I give in to youYou left me echoes
Footsteps in the hall
You marked the borders
I built the wallsDream your lie in your tainted sun
Tell me who is right when I'm left for dead
Wanna see you come in before I give inDon't be scared, don't be scared
You can face the truth of it all
Don't be scared, don't be scared
If you can't bear the weight of it all
In your tainted sunSo you hear my whispers
But that there's no doubt at all
But you still walk round the borders
And I'm, I'm stuck with the wallsDream your lie in your tainted sun
Tell me who is right when I'm left for dead
Wanna see you come in before I give inDon't be scared, don't be scared
You must face the truth of it all
Don't be scared, don't be scared
You can't bear the weight of it allDon't be scared, don't be scared
You can't bear the weight of it allDream your lie in your tainted sun, baby
You tell me I'm right when I'm left for dead
Gotta see you rise, just an inch of the truth
Wanna feel your right, just an ounce of the truthWanna see you right, gotta fell you right
Wanna see the truth before I give in to you
Before I give in to youBut in your tainted sun, all I see is shadows
All you hear [Incomprehensible]
