Antisocial

Front Line Assembly

Get up, do what you want
Before, before it's too late
Don't, don't worry yourself
What others try and thinkKick down the door
To hell for more
Severe injections
A lethal doseKick down the door
To hell with poverty
Clench your fist
And shout at them allIt's just one lost cause
Clenched, clenched fists shout
We're souls, souls in ignorance
Break, break all the windowsShout deliverance
Break all the rules
Innocent victimDo what you want
Clench your fists
Clench your fists
Clench your fists
