Love Sick

Sleigh Bells

When I heard you're still alright
I must admit, I laughed , I cried
I found a stranger too about
I tell the truth, oh leave me down
I've lived my only tale or die
I cut my thing so short on sight
But dear, love is a contact sport
Doing bunny hops and I'll never stop[Chorus]
If you' Could you' Would you'
Just because you can doesn't mean you should
Is that understood' Oh oh
If you' Could you' Would you'
Just because you can doesn't mean you should
Is that understood'Terminate a lex and let's jump in the next
Runnin' down the street, always chasing boys there
Love sucked, love sucked
He gave up up up up
Just nowhere to go, I was feeling just fine
Now I'm running along 'cause you cut me in live
Love sucked, love sucked
He gave up up up up[Chorus]
If you' Could you' Would you'
Just because you can doesn't mean you should
Is that understood' Oh oh
If you' Could you' Would you'
Just because you can doesn't mean you should
Is that understood'The pleasure of your company
Look what it's done to me
The pleasure of your company
Look what it's done to meThere's a heart in my chest
Where a hope used to be
There's a hope in my chest
Where a heart used to beI'm sending gummy bears to the electric chair
