Alcohol

No Fun At All

Got the time when the sun goes up We'll drink until we drop My love for hundred brews That soothes, the foot's been dropped Not enough for the men on the walk I drive and drink till I dropNo doubt about it Can't live without it No doubt about it I can't live without it, alcohol AlcoholWhy it's my destiny? You get the beer We get the time You get the coke, gimme a lineNo doubt about it Can't live without it No doubt about it I can't live without it, alcoholGot the time when the sun goes up We'll drink until we drop I drive and drink till I dropYou get the beer We get the time You get the coke, gimme a lineNo doubt about it Can't live without it No doubt about it I can't live without it
