

# All Nighter

## Lady Antebellum

I'ma walking out of my front door  
I'ma jumping in my car  
Take another left on Main Street  
Heading right to where you are I'ma rolling down my window  
I'ma turn the radio on  
Find a little spot to let go  
Get a little good time gone  
'Cause this is an All nighter  
I get lost with you  
Running through every red lighter  
A falling and feeling like a star  
Right out midnight skyer  
Let the time fly by  
It's finding a hand  
Taking a chance  
Starting the fire  
This is an all nighter We were gonna take that sunset  
Make it turn a blue sky red  
We can worry about tomorrow  
Or watch her city live, and stare Get a little back road busy  
Let the moon shine on us  
Get a little love drunk dizzy  
'Till the sun still back up  
'Cause we just can't get enough  
'Cause this is an All nighter  
I get lost with you  
Running through every red lighter  
A falling and feeling like a star  
Right out midnight skyer  
And let the time fly by  
It's finding a hand  
Taking a chance  
Starting the fire  
This is an all nighter Oh yeah, baby Until we tongue kiss  
Trouble Tom Cruise  
Take another sip talking 'till two  
'Cause this is an All nighter  
I get lost with you  
Running through every red lighter

A falling and feeling like a star  
Right out midnight skyer  
Let the time fly by  
It's not in the end  
Taking a chance  
Starting the fire  
This is an all nighter This is an all nighter I'ma walking out of my front door  
I'ma jumping in my car
