

# Easy Love

David Nail

Come on girl, don't it feel good to you  
Like a watermelon ripe on your lips  
Somethin' 'bout the way you look at me, made me lose my breath  
Radio, window down, sing to me  
Every word, every note, every touch  
In a world gettin' harder baby, it's an easy love  
Chorus:  
So, come on, let's get high like a whippoorwill  
Shine bright like a summer sun  
Feel the heat in between  
Yeah, it tastes so sweet  
Just like when we were young  
It's an easy love  
Carolina come on and carry me  
To that honeysuckle heaven you hold  
Get lost in the feel of forever  
And don't let it go  
We can sway to the sound of the river  
Scream every note at the top of our lungs  
Oh yeah, don't it come so natural baby, this easy love  
Repeat Chorus x2  
Yeah, it's an easy love  
How your tan lines shine, I can never resist  
Still feels like the first every time we kissed  
How your long brown hair flying 'round to the beat  
Just like we were seventeen  
It's an easy love  
Oh, it's an easy love
